JAWAD AHMED

ENTRY-LEVEL AI GENERALIST (GENERATIVE AI APPLICATIONS & EVALUATION)

P/O Moazzam Abad, district Sargodha, Pakistan | ja358288@gmail.com | 03134792188 | LinkedIn | Hugging Face

Certified AI Generalist and Generative AI Application Developer with hands-on experience building and evaluating AI agents, optimizing prompts, and improving model outputs through human-in-the-loop feedback.

PROFILE

Entry-level AI Generalist and Certified Generative AI Application Developer with hands-on experience building and evaluating Generative AI applications and autonomous agents, including a Knowledge Manager Agent for information organization and retrieval. Experienced in reviewing AI outputs for accuracy, relevance, and consistency while identifying hallucinations and reasoning gaps. Proficient in improving response quality through prompt engineering and human-in-the-loop feedback. Award-winning prompt engineer seeking to contribute to AI training, evaluation, and model improvement initiatives.

ACCOMPLISHMENTS

- Secured **2nd Position in a Prompt Engineering Competition**, recognized for effective prompt design, response optimization, and reasoning clarity.

- Earned **Certified AI Generalist** credential, demonstrating foundational understanding of AI systems, evaluation workflows, and responsible AI practices.

- Achieved **Certified Generative AI Application Developer** certification, validating hands-on experience in building and evaluating Generative AI applications.

- Built and evaluated multiple **Generative AI applications and autonomous agents**, including a Knowledge Manager Agent focused on information organization, retrieval, and output consistency.

EDUCATION

University of Sargodha   **Dec 2022 — Sept 2026**

BS Information Technology, sargodha
CGPA: 3.70 / 4.00

Focused on Artificial Intelligence and applied computing with hands-on academic projects involving AI model interaction, output evaluation, data interpretation, and structured problem-solving. Coursework emphasized understanding system behavior, analyzing generated outputs, and improving through iterative refinement and clear documentation.

TECHNICAL SKILLS

Generative AI & AI Evaluation	AI Agents & Knowledge Systems	Analytical & Communication Skills	Tools & Platforms (Hugging Face, LLMs)

LICENSES & CERTIFICATIONS

Generative AI Application Developer, PAK ANGELS   **Jun 2025 — Jul 2025**

5-Day AI Agents Intensive Course with Google, Kaggle | Google   **Dec 2025 — Dec 2026**

Generative AI Mastermind, OutSkill   **Sept 2025 — Sept 2025**
